

Sunshine for hire

NO EMISSIONS

No fumes or greenhouse gas emissions

NO NOISE

Benefits for urban locations and night projects

NO FUEL

No diesel costs, spills, or refuelling

NO MAINTENANCE

Technology allows you to set up and forget

Solar Lighting Rental Services

Prolectric temporary solar lights keep on delivering, even on the darkest winter months with the shortest days. Proven with customers across the UK, our technology is 100% reliable, using the latest LED bright lighting and Lithium batteries for high performance.

Prolectric lights capture free energy from the sun, so they don't need diesel or mains electricity. They offer a like-for-like, value-for-money alternative to conventional lighting.

Prolectric Hire Services

ProLight Solar Lighting Tower

The ProLight is the cost-saving alternative to diesel-generator tower lights.

A stand-alone trailer light that never needs to be refuelled, the ProLight saves you diesel costs and manpower, while it continues to provide powerful light with no noise, polluting emissions or danger of spills.

ProTemp Solar Lighting Column

The Prolectric ProTemp is a powerful and versatile solar lighting column on a concrete base, that can be moved into position quickly and easily with a forklift or sack-barrow.

Choosing ProTemps dispenses with the need to dig trenches, install trunking or cables and saves significantly on groundworking and installation costs.

ProTrack Link Lighting System

The ProTrack is a rechargeable, battery-powered link lighting system that offers a simple and versatile new off-grid solution for illuminating night-time trackside working.

Weighing in at just 60kg, each ProTrack portable battery unit powers 9 link lights covering 100 metres, with up to 27 hours between rapid recharging.

At your service

We have a large UK fleet of solar lighting, ready and available to be deployed on your site. As required, our service covers:

- Full lighting design service
- Short- or long-term hire
- Supply at short-notice
- Delivery and set up on-site
- Remote control & monitoring

Applications

- Infrastructure & construction projects
- Site welfare compounds & walkways
- Temporary car parks
- Off-grid emergency response
- Outdoor events & festivals
- Trackside maintenance
